TACTICAL WHEELED VEHICLE CONFERENCE

Military Deputy to the Assistant Secretary of the Army for Acquisition, Logistics, and Technology

THERE IS AT WAR AND TRANSFORMING NO TIME TO KILL
“We have set an ambitious timeline for FCS and the Objective Force. But our legacy processes will not serve us well -- we know that. We can no longer take concepts to final form, present them for acceptance, and then go back to work out the kinks -- that takes time, energy, and money.”

- General Eric Shinseki, CSA
