

Q-Star™
Coalition and Commonality Server
(QCCS)

QCCS

What is the QCCS

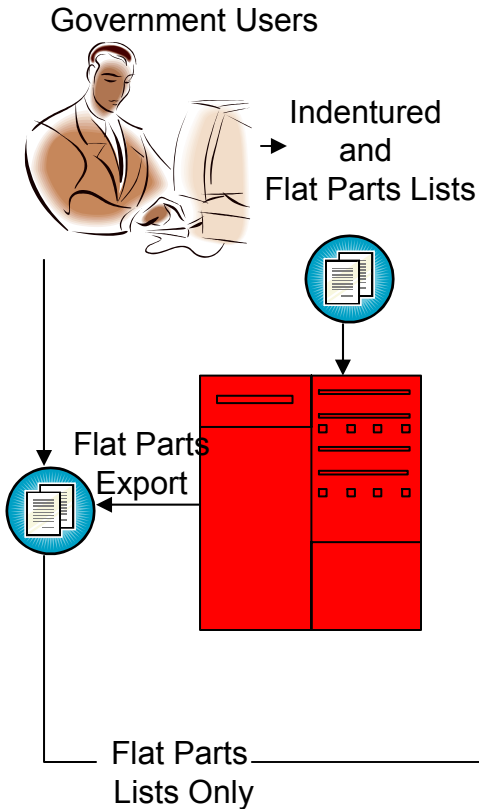

- **Semi-Mirrored version of the DoD version of QStar with a separate user parts lists database**

Why

- **Government-Industry BOM sharing**
- **Increased Part Commonality interaction from QStar user community**
- **Coalition Member access (pending)**

QStar DoD Version

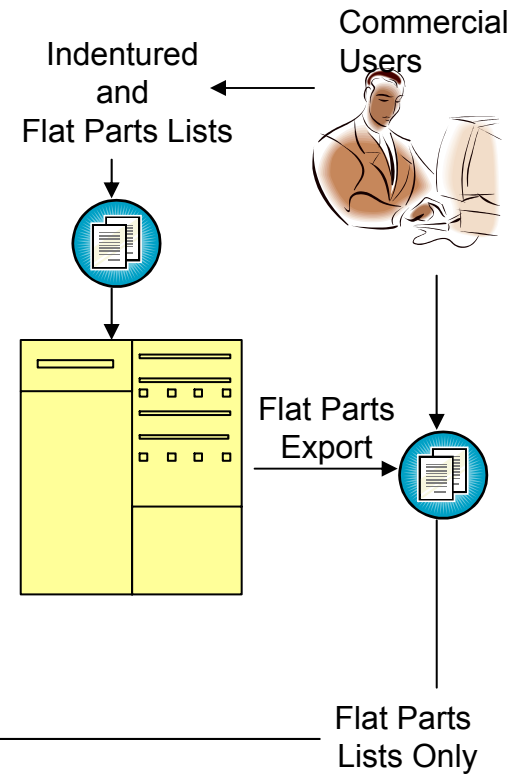

Opt in Commonality and List Sharing Across all Government Users

Commonality/Coalition System

Commonality and User Controlled List Sharing Across all Participating Users

QStar Commercial Version

Company Segregated Access to List

Note: All actions are user initiated; no automated parts loading across systems

QCCS

- Access
 - DoD and US Government Users
 - No difference; license covered by DoD License
 - GIDEP Userid/Password
 - Industry Users
 - Commercial Subscription to QStar
 - GIDEP Userid/Password
- Logging On
 - No users or data transferred to QCCS; completely voluntary
 - Can export from DoD QStar system (to excel or csv) and import into QCCS

QCCS

QCCS

- Differences from DoD version of QStar
 - Flat Parts lists only
 - system will accept Indentured BOMs (ignores indenturing information)
 - Indenturing related features removed
 - Part sharing at the list level only
 - No Delete Capability (considering time delay)
 - Commonality Participation is a requirement
 - No alerts
 - reduces duplicate alerting from DoD QStar server or Commercial System
 - As a note; the DoD Sharing is Optional

QCCS

- Solution Data Sharing (under consideration)
 - Solution notes shared through Commonality Screen
 - Considering additional fields during the solution collection process

QCCS

- Reports
 - All standard reports available
 - Considering new reports
 - Commonality count by list
 - Parts list that have Commonality and count
