Committed Dollars are defined as dollars used to procure goods or services that can be tracked back to a prime contract via a valid contractual document. The contractual document can be fully or incrementally funded. Funding for subcontracts generally fall into two categories (Per FAR Subpart 32.7):

1. **Fully Funded** – funds obligated to cover the full or estimated price at subcontract completion.
2. **Incrementally Funded** (aka. "Fund(s) Limited") – Funds obligated to cover the amount allotted and any corresponding increment of fee for identified contract effort.

Formula used for percentages: Numerator includes committed dollars placed with diverse suppliers (e.g., SB, SDB, WOSB, HUBZ, VOSB, SDVOSB) during a reporting period. Denominator includes ALL committed dollars (including both large and small business suppliers) for the same reporting period. Please note: In some cases, a pro-rata portion of indirect dollars may be included in both the numerator and denominator. Some Partners have a dollars threshold of $500K for reporting small business dollars.
