TIRE COMMODITY MANAGEMENT PRIVATIZATION (BRAC)
Mr. Matthew O. Geary
Mr. Mark A. Stanley
The Defense Supply Center Columbus is implementing the 2005 Base Closure and Realignment Act (BRAC) recommendation on Tire Commodity Management Privatization, which will transform the manner that tires are supplied to the Department of Defense customers. The BRAC Tire Privatization Initiative is designed to achieve economies and efficiencies that enhance the effectiveness of logistics support to forces as they transition to more joint and expeditionary operations. This recommendation disestablishes the supply, storage and distribution functions for all tires used by the Department of Defense, retaining only the supply contracting functions for the tire commodity. DSCC will privatize these functions and will rely on private industry for the performance of supply, storage and distribution of these commodities.

Breakout Workshop Sessions

DLR - DEPOT LEVEL REPARABLES (BRAC)
Mr. Stephen E. Rodocker
The 2005 base Realignment and Closure (BRAC) Commission approved the Secretary of Defense recommendation to consolidate the Depot level Reparable (DLR) procurement management and other related support functions from the Military Service components to the Defense Logistics Agency. The transition is scheduled to begin in FY 2008 and be completed no later than FY 2011. The planning and implementation recommendations are being developed by a Joint Service DLR Working Group comprised of senior DoD procurement officials and senior logisticians from all military components. The foundation of this transition is a Concept of Operations (CONOPS) which will guide the implementation and establish an overarching vision for the future. The myriad tasks associated with DLR procurement management are being developed and include workload planning and transition based on an incremental tiering approach, DLR procurement governance designed to facilitate joint DLR procurement opportunities, establishing Financial, Information Systems, Human capital and performance Management plans and establishing DLA buying Detachments in an “as-is, where-is” environment. Challenges abound about the DLR Working Group is working jointly to identify, assess and mitigate the obstacles that could prevent a successful transition.
