Counter Improvised Explosive Devices (CIED) Technology Directorate

**MISSION**

To make recommendations for technology pursuits to enhance and expedite the Marine Corps’ ability to counter the ever-changing threat of Improvised Explosive Devices (IEDs).

**VISION**

- Be responsive to the warfighters’ future needs by recommending programs, projects, and technologies for development, production, and fielding that meet the warfighters’ needs.
- To provide the CG, MARCORSYSCOM, and other senior-level officials within the Marine Corps a rapid response organization capable of providing timely and quality information papers, reports, trade studies, and assessments regarding Counter IED technologies.
- Serve as MARCORSYCOM’s single point of coordination for all CIED efforts.
- Develop and maintain a technology knowledge center that is capable of providing technology roadmaps and showing the gaps in needed technologies.

C4I Integration

**MISSION**

To ensure delivery and sustainment of a superior integrated Enterprise C4ISR capability to the operating forces and supporting establishments. *(Includes all C4ISR systems that connect in any way with DoD data networks both tactical and non tactical. Does not include electronics that do not connect in any way to any other systems. Interoperability: (1) The ability of systems, units, or forces to use the services, units, or forces and to use the services so exchanged to enable them to operate effectively together. (2) The condition achieved among communications-electronics systems or items of communications-electronics equipment when information or services can be exchanged directly and satisfactorily between them and/or their users. Integration: The stage of system development and demonstration that applies to systems that have yet to achieve system level design maturity as demonstrated by the integration of components at the system level in relevant environments.)*

**VISION**

We are timely and consistent in providing quality systems and equipment to the Operating Forces. We expertly manage systems and equipment during their entire life cycle. We are a proud, high performance, team-based, learning organization working in a professional environment. We employ highly effective, streamlined and innovative business processes.

**MISSION**

Infantry Weapons Systems (IWS) is the principal agent for equipping and sustaining the operating forces with the infantry weapons and systems to accomplish Infantry, Anti-armor, Amphibious Raids and Reconnaissance, Target Acquisition, Force Protection and Non-Lethal Systems missions. IWS is also developing the process by which the Marine Corps addresses the Rifle Squad as an integrated system, and defines the Marine Expeditionary Rifle Squad of the future.

**VISION**

In harmony with Marine Corps Systems Command vision, the IWS group's vision and strategic themes are:
- Providing quality systems and equipment to the Operating Forces.
- Expertly managing systems and equipment during their lifecycle.
- Establishing a proud, high-performance, team-based organization working in a professional environment.
- Employing highly effective, streamlined and innovative business processes.
MISSION

To equip the operating forces with assault amphibious vehicle systems, fire support systems, a high mobility artillery rocket system, an expeditionary fire support system and tank systems to accomplish their war-fighting mission.

VISION

We are timely and consistent in providing quality systems and equipment to the Operating Forces. We expertly manage systems and equipment during entire lifecycle. We are a proud high performance, product-centric, team-based, knowledge sharing, learning organization working in a professional environment. We employ highly effective, streamlined, and innovative business processes.
**PG 15**

Ground Transportation & Engineer Systems (GTES)

**MISSION**

To provide the Operating Forces with superior acquisition and life cycle management of tactical ground transportation, power generation and stored power, and engineer systems.

Global Combat Support System – Marine Corps (PM GCSS-MC)

**MISSION**

The mission of the Program Manager, GCSS-MC is to provide capabilities that support the physical implementation requirements and support discreet performance measures necessary to accomplish enterprise logistics transformation objectives. The Program Manager is chartered to deliver integrated functionality and a logistics SDE implemented through the maximum use of COTS and GOTS software, enterprise application integration/middleware software, and web portal software. The Program Manager will acquire capabilities to satisfy the Marine Corps Logistics Transformation Plan, and the Marine Corps Logistics Campaign Plan. The GCSS-MC program, when fully implemented, will sustain an enterprise strategy designed to enable business process and modernize information technology required to improve combat effectiveness for 21st Century expeditionary operations.

**VISION**

To maximize Marine Corps Combat Effectiveness through state-of-the-art Logistics Information Technology, that delivers the right logistics data at the right time, at the right place.

Program Manager
Light Armored Vehicles (LAV)

PM LAV

Mission
Provide technologically superior weapon systems while supplying focused life cycle management to our customers.

Vision
For the Program Manager (PM) Light Armored Vehicle (LAV) team to achieve world class leadership in innovative system acquisition and effective sustainment of armored vehicles.
Small and Disadvantaged Business Utilization (SADBU) Office

MISSION
To assist the Commanding General in maintaining a successful Small Business Program through outreach and training.

VISION
To establish and maintain a thriving Small Business Program

The Marine Corps Systems Command is responsible for providing research, development, and acquisition of equipment, information systems, training systems, and weapon systems to satisfy all approved material requirements of the Marine Corps. As a tenant of the Marine Corps Base Quantico, we are not responsible for base type support contracts.

Small businesses interested in providing capability briefs, please e-mail Small Business at jeraline.arts@usmc.mil.
MISSION

To effectively contribute to the war fighting mission of the United States Marine Corps by providing quality, timely, cost-effective and value-added procurement solutions for our Marine Corps customers; all while being diligent and faithful stewards of the taxpayers’ dollar and trust.

CORE VALUES

• Ethics/Integrity
• Customer Satisfaction
• Teamwork
• Continuous Improvements
