DoD Chemical and Biological Defense
Advance Planning Briefing for Industry
April 4-5, 2007

The Washington Convention Center
Washington, D.C.

Held by:
National Defense Industrial Association
In support of:
The Joint Program Executive Office
for Chemical and Biological Defense

NDIA EVENT #7370
The National Defense Industrial Association, in support of The Joint Program Executive Office for Chemical and Biological Defense (JPEO-CBD), will hold a Department of Defense Chemical and Biological Defense Advance Planning Briefing for Industry (APBI) on April 4 - 5, 2007, at the Washington Convention Center, Washington, D.C.

Advance Planning Briefings for Industry are held annually to keep the industrial base well informed of future business opportunities, the direction of the Chemical and Biological Defense program and future requirements of the Department of Defense. The APBI will include details on Joint Service mid and long-range research, development, test, and evaluation plans and programs, future production projections, and emerging military requirements. These briefings are designed to identify specific contract opportunities over the next five years. Both days of the APBI are open to contractors, large and small businesses, and universities.

Twenty minute one-on-one discussions with the Joint Project Managers and representatives from the Joint Science and Technology Office will be available on day two.

This year we will have advance sign ups for the one-on-one meetings. Please check the following websites for further information:
