Army Sustainment Command

“On The Line Today, Keeping Our Army Strong”

NDIA National Logistics Conference
(19-22 March 2007)

D. Scott Welker
Deputy to the Commander
ASC’s Intertwined Support to the Field Army

Bridging the Tactical / Operational / Strategic Army

**Materiel Management**
Provide logistics support to equip and sustain our forces world wide.

**Contracting**
“Using contractors in place of military force structure”.

**Prepositioned Stocks**
Provides power projection platforms for COCOMs, Disaster Relief and Humanitarian Aid.

**Reset**
Train, equip, deploy organic CSS units and modular formations.

**Field Support**
Identifies and resolves technical and sustainment issues and mitigates materiel readiness problems for the COCOMs.

**BCTs Reset, Trained and Prepared for Mission Deployment**
Reset…

- $17.1 B for FY07 provides a solid start for:
  - Restoring Army equipment to pre-deployment serviceability
  - Replaces critical systems lost and starts to replace RC equipment left in theater;
  - Raises equipment on hand slightly
  - Restores equipment serviceability
- Army finalizing detailed plan – in place, viable, and executable
- Does not ‘fix’ the Army EOH shortfalls or equipment committed to the AOR
- RESET will be required for 2+ years after conclusion of current contingencies

“To prevail in the long struggle in which we are now engaged, we must maintain our readiness by resetting those who have deployed through a disciplined, orderly reconstitution of combat power. Our soldiers’ effectiveness depends upon a national commitment to recruit, train, equip, and support them properly. This commitment must be underwritten by consistent investment”

CSA, 27 Jun 06
