

Munitions Logistics and JMC's role

Mr. Jyuji Hewitt
Deputy to the Commander
AMSJM-DC
(309) 782-8885

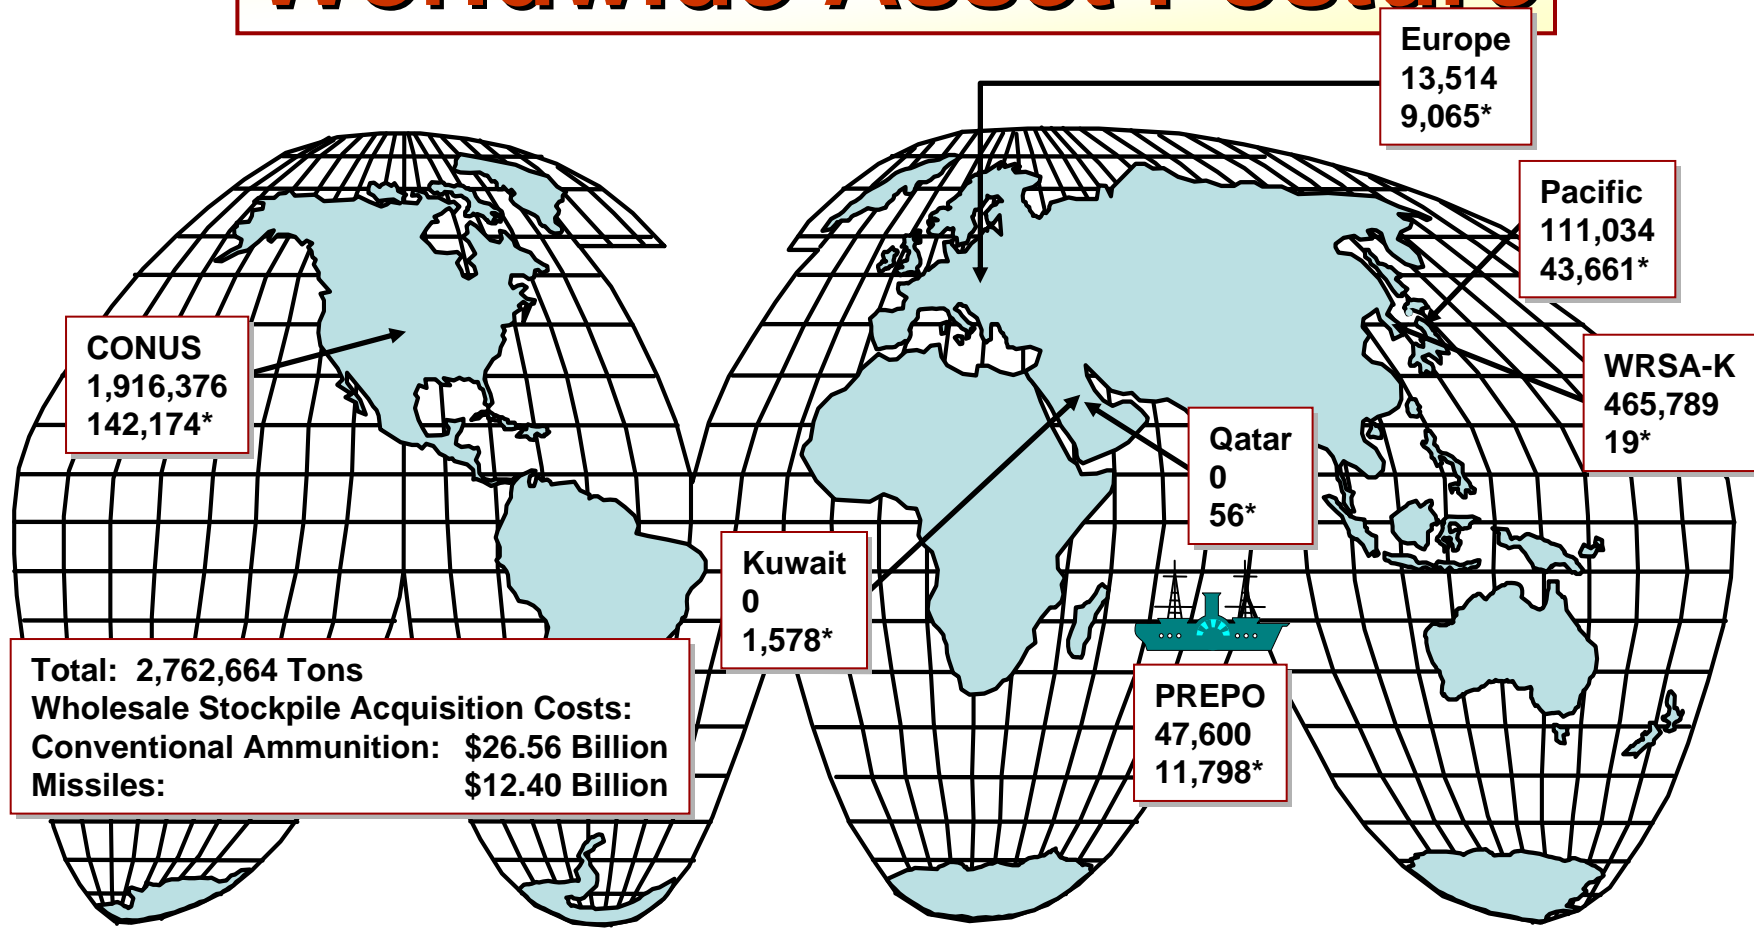

Supplying the Warfighter

- ✓ Supply chain
- ✓ Cross level retail
- ✓ Redistribute OCONUS assets
- ✓ ARFORGEN
- ✓ Prepositioned assets

Leaning Forward to support operational ammunition requirements

Worldwide Asset Posture

Notes:
 OCONUS = AMC Accountable (Army Only)
 CONUS = AMC Accountable (All Services)
 *Missiles
 Sources: Conventional Ammunition: CCSS/SAAS
 Missiles: NLAC

Primary ILS Project Objectives and Deliverables

(JMC – George Group Team Effort)

Primary objectives:

- Creation of an integrated logistics strategic framework to improve munitions logistics efficiency while maintaining or improving readiness
- Taking another large step toward a Supply Chain strategy that integrates munitions production and logistics

This is a JMC & George Group effort.
JMC = HQ, Installations, & DAC

Deliverables:

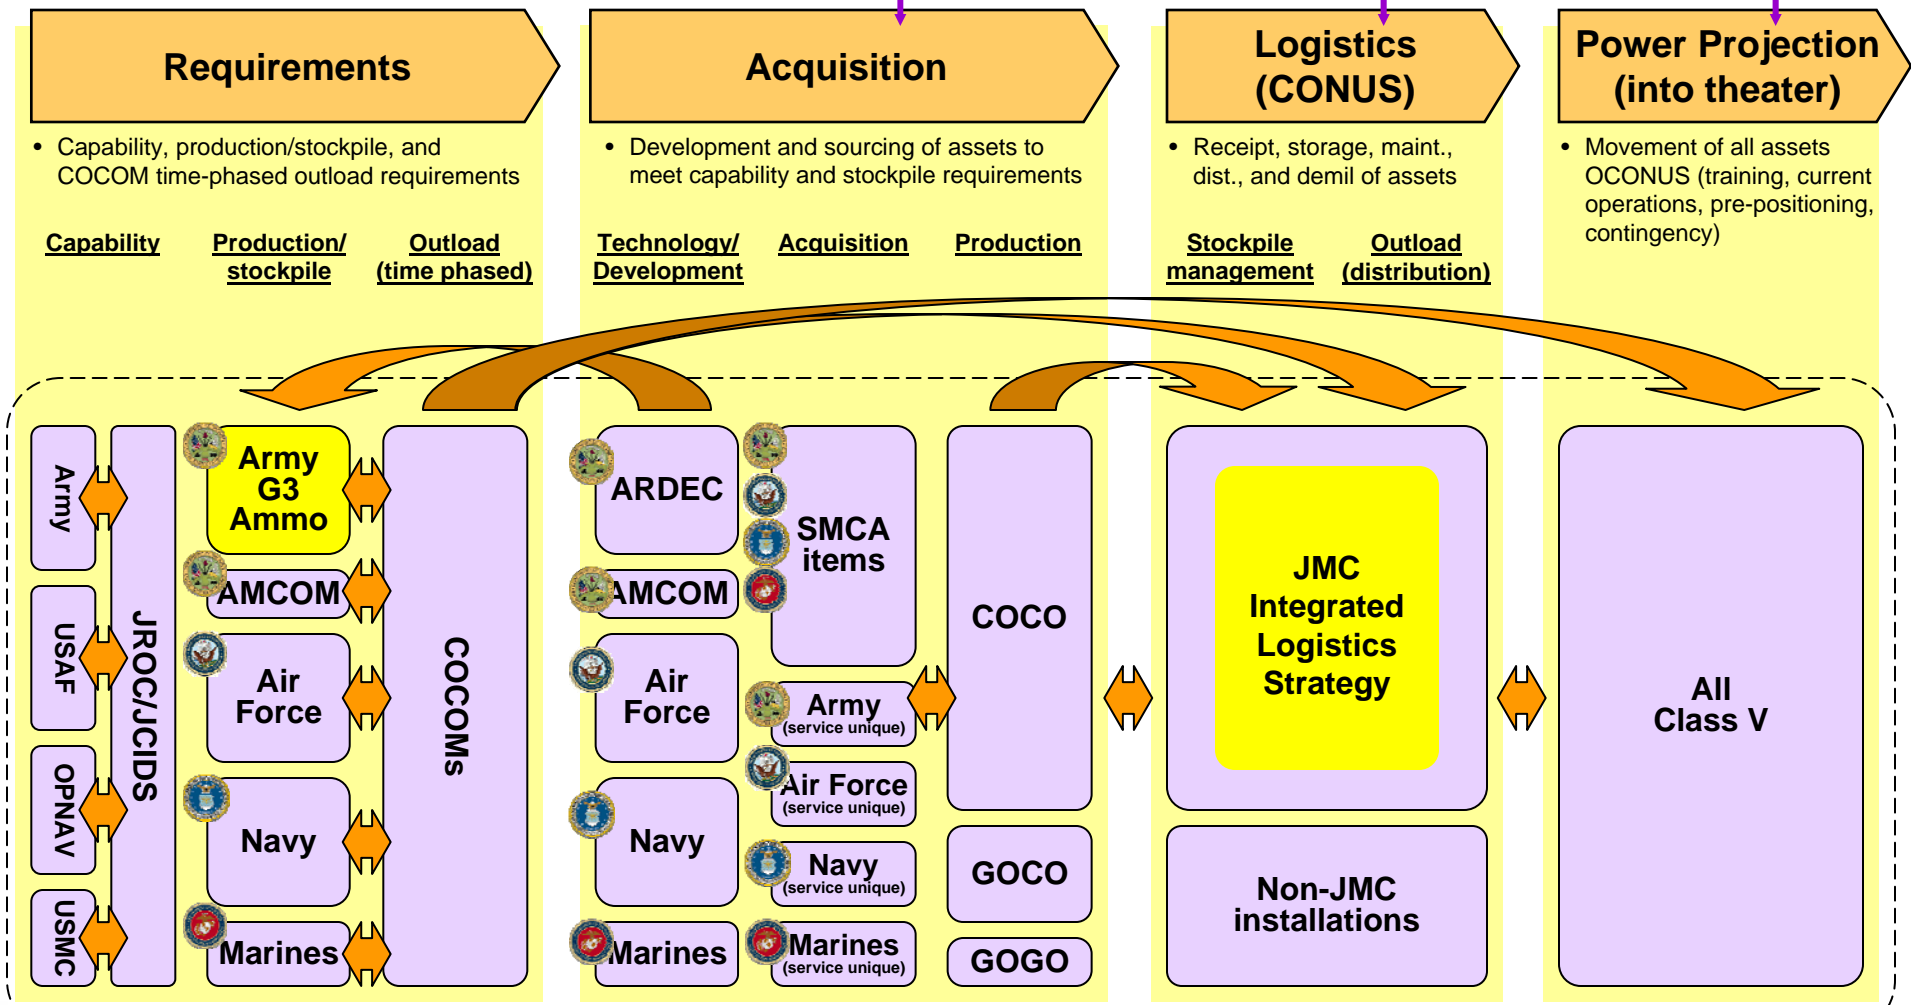

- Codification of ILS Framework in a ‘play-book’ to guide key operational and strategic decisions
 - Network sizing and structure
 - Ammo positioning
 - Workloading
- Project roadmap toward development of a larger Integrated Supply Chain Strategy
- Listing of recommended LSS projects

More than just a plan, it is an “Actionable” Document

The Larger Supply Chain

Distribution Process Owner →

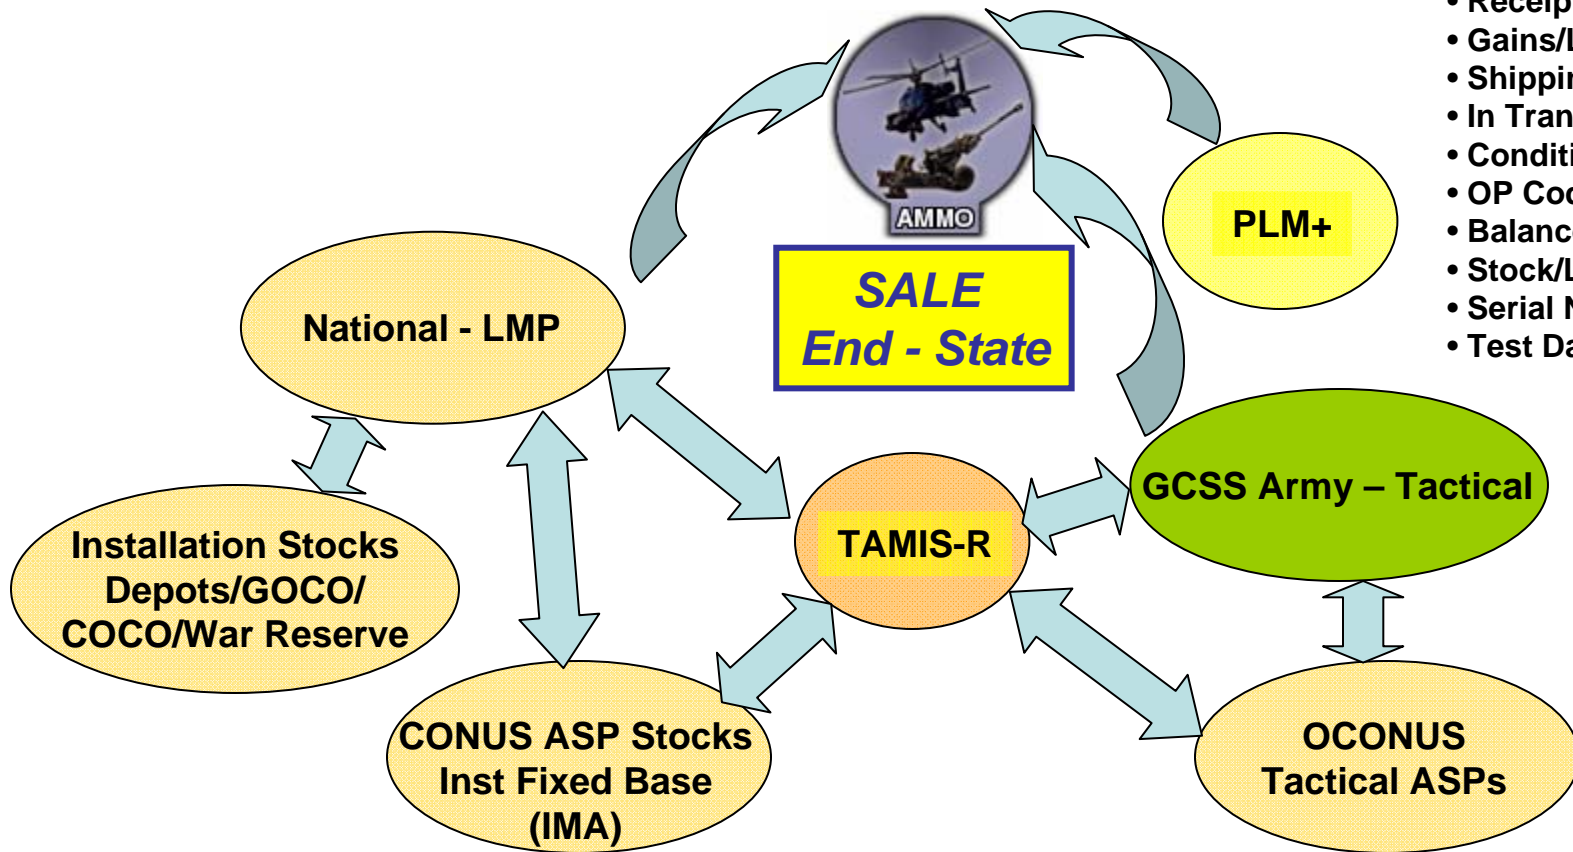

Integrated Supply Chain Strategy

- = Dependencies
- = Completed projects
- = Other potential future projects

National and Tactical Ammunition Logistics Systems

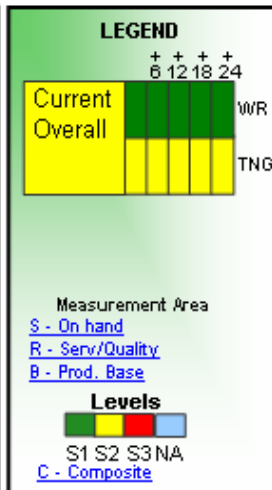

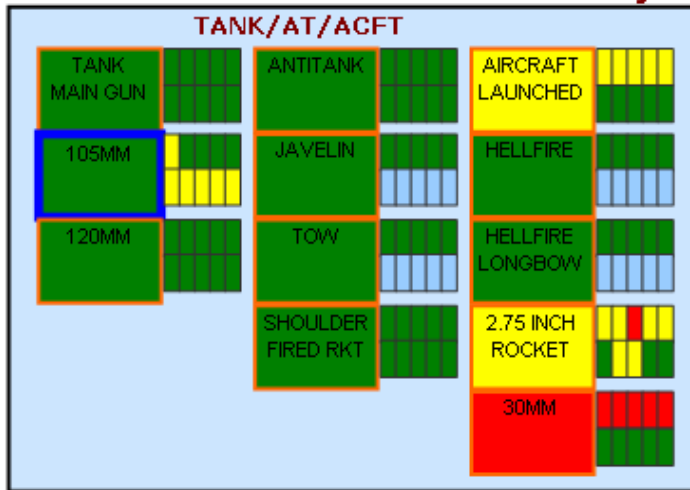

Ammo Data Requirements:

- Receipts/Sales
- Gains/Losses
- Shipping/Transportation
- In Transit Visibility
- Condition Code Changes
- OP Code Changes
- Balance Adjustments
- Stock/Lot# Changes
- Serial Number Changes
- Test Data
