

# NDIA Government Panel

Ms. Kimberly Del Greco  
Federal Bureau of Investigation  
Criminal Justice Information Services

# Biometrics

- Biometric systems are being used by numerous programs to establish, authenticate and verify identity.
- Each US Government Agency has to meet its own mission
  - Applying existing and emerging biometric technologies to collect, use and share data in identification and screening processes

# FBI Programs

- Next Generation Identification
  - Multi-modal
  - Flexible and scalable
- Biometric Interoperability
  - DHS US-VISIT IDENT
  - DOS
  - DOD's ABIS
- BCOE
  - Foster collaboration, improve information sharing, advance biometrics through research and academia.

# HSPD - 24
