THANK YOU TO OUR SPONSOR!

Northrop Grumman Information Systems is a leading global provider of advanced solutions that deliver timely, enabling information to where it’s needed most for its military, intelligence, civilian, state and local and commercial customers. We are a $10 billion business employing approximately 35,000 employees with offices in 50 states and 18 countries.

Our customers look to us for large-scale enterprise solutions. We support commanders who manage far-flung forces via global command, control and communications systems; police and firefighters who will access high-speed data and video over a new broadband wireless network; battlefield commanders who use a tactical Internet to lead their troops; Department of Homeland Security staffers who rely on their classified network infrastructure; intelligence analysts who rely on their systems to get actionable information into the right hands at the right time; missile defense analysts who model and simulate scenarios at the Joint National Integration Center; states, counties and cities who rely on the management of their information infrastructures to deliver responsive services to their citizens; and businesses that adopt new software solutions to make their enterprise processes run more smoothly and efficiently.
