

***Joint Requirements Office  
for  
CBRN Defense  
An Overview***

# JRO – CBRND Roles and Responsibilities

## Concepts, Studies/Analysis

- Develop Operational Concepts
- Conduct CBAs
- Participate in experiments, demos and Joint Capability Technology Demos
- Oversee Joint Combat Developer for Experimentation
- Develop/manage studies
- Advocacy for Science & Tech/Modeling & Sim
- Coordinate Threat Assessments & Input
- Develop Analytic Agenda

## Mission Area Integration

- Develop Modernization Plan
- Coordinate CbtWMD WG
- Support Protection FCB
- Incorporate CWMD/CBRND Aspects for CPR and CPA
- Joint Capability Area coord
- Protection CPM for CWMD/CBRND
- Lead POM development
- Coordinate all Joint Staff/J-8 CWMD efforts
- Conduct Program Reviews and Readiness Reviews
- Coordinate liaison support
- Support International Efforts

## Capabilities Integration

- Identify/develop CBRND materiel capabilities (JCIDS)
- Manage Joint Capabilities Integration Development System documents
- Identify/develop CBRND Passive Defense non-material capabilities
- Provide warfighter advocacy to PMs, T&E, and Science & Tech organizations
- Coordinate Passive Defense doctrine, training and education issues
- Participate in Multi-national agreements with NATO and AUCAUKUS

## Consequence Management

- Facilitate and advocate for domestic and non-domestic CBRN CM material/non-material capabilities
- Joint Staff lead for joint CBRN CM resource issues including POM development and Protection CPM issues
- Joint Staff lead for DoD Installation Protection Program
- Conduct and support CBRN CM capability studies, analyses, and assessments

## Future Look

### Medical Integration

- Integrate and advocate for Medical capabilities across CBRND mission areas
- Manage Medical CBRND JCIDS documents ICW CIB
- Coordinate Medical CBRND capabilities with Services, COCOMs, OSD (ASD HA), Joint Staff, advanced tech developers and Medical S&T
- Participate in NATO Medical CBRN WG and BioMed WG; coordinate with AUCAUKUS Med Requirements Team
- Advise the Director, Deputy Director and JRO decision maker on Medical CBRND aspects

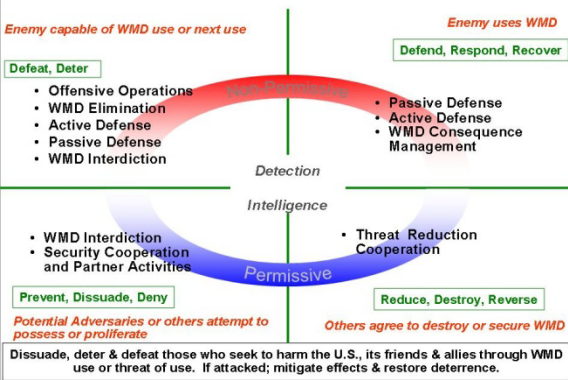

# Standing Joint Force HQ-Elimination

- Builds on current Organizations
  - Joint elimination coordination element
  - 20th SUPCOM Operational command post
  - ★ Adds liaison officers
  - ★ Adds Intel and exploitation elements

- Enhances planning, training and exercise support
- Provides core of trained SMEs to reduce response time and increase immediate effectiveness
- Establishes a focus for COCOM support
- Institutionalizes WMD Elimination as a routine regional operation

# Mission Areas for Combating WMD

## Strategic Goal

## Military Strategic Objectives

**Interdiction**

**Threat Reduction Cooperation**

**Security Cooperation and Partnership Activities**

**Active Defense**

**Elimination**

**Passive Defense**

**Offensive Operations**

**WMD Consequence Management**

**Strategic Enablers**

**Guiding Principles**

- New or expanded requirements include:
  - Field faster, more flexible CM response forces
  - Strengthen ability to conduct forensics and attribution
  - Enhance worldwide biological surveillance
  - Rapidly field defensive countermeasures
  - Organize a Standing JFHQ-E
