Unsolicited Proposals

Marine Corp Systems Command (MCSC) fosters and encourages the submission of unsolicited proposals that offer unique and innovative methods or approaches and that offer significant technological promise toward the accomplishment of our mission. A valid unsolicited proposal must be independently originated and developed, prepared without Government supervision, and provides sufficient detail for Government review, but must not be an advance proposal for a known agency requirement. Moreover, submission of an unsolicited proposal does not in any way guarantee a contract award.

Definition

An unsolicited proposal is defined in FAR 2.101 as "a written proposal for a new or innovative idea that is submitted to an agency on the initiative of the offeror for the purpose of obtaining a contract with the government". Advertising material, commercial item offer, or contribution, as defined in FAR 15.601 shall not be considered to constitute an unsolicited proposal.

MCSC encourages any potential offeror to contact technical personnel before preparing a detailed unsolicited proposal with the purpose of understanding the mission and needs relative to the type of effort contemplated. These contacts should not be construed as any form of negotiation in contemplation of any contractual arrangement for the Marine Corps by either party and must be undertaken solely at the contractor's expense.

Receipt and evaluation of an unsolicited proposal does not imply a promise to pay for the preparation of the proposal nor create any other obligation on the part of the Government.
