**Where do we want to go?**

We will build a well-educated and professionally trained force with the intuitive abilities to work through or with indigenous partner forces.

We will develop innovative, relevant doctrine, informed by insightful future concepts, to produce an agile, adaptive force.

We will ensure that our country has a full-spectrum special-operations force prepared to address the diverse range of threats posed by an uncertain 21st-century environment.

**Vision**

**Intent**

**Priorities**

**Key Tasks**

**Metrics**

---

**What must we do?**

**Professionalize our Force.** This will involve creating a climate where our Soldiers and civilians have a demonstrated willingness to learn, accept new responsibilities and a sincere belief that there is always a better way of doing business.

**END-STATE:**

We have created an environment where the best, the brightest and the most creative Soldiers and civilians are attracted, retained and empowered.

---

**How will we do it?**

1. Provide quality instruction by quality instructors. (hand-picked and well prepared)

2. Be more proactive in battlefield relevant/regionally focused curriculum design.

3. Develop new courses and eliminate old ones. Identify redundancies in training and POIs.

4. Identify future Force Modernization capabilities. (What should the force look like in 2018)

---

**What (specific) actions must we do?**

- Develop a nominative process for assignments to SWCS.
- Refine our Instructor Training Course.
- Develop a training review process with our regiments input.
- Empower our NCOs to effect POI change.
- Constant collaboration with the operational force. (Our regiments, the TSOC, country teams and IA).
- Determine ARSOF-specific capabilities and capacities.
- TSOC exploration initiative.
- Enhanced knowledge management processes.
- Divest ourselves of low priority activities.

---

**How do we measure success?**

- Non-punitive quality assurance program.
- Life-long learning & continuous improvement culture.
- Structured CTSSB at regiments for input.
- Instructor blogs and course websites.
- CDRs/CSMs input on new/revised curriculum.
- Training strategies aligned with TSCP and ongoing operations.
- Empirical evidence validates (or modifies) SOCOM’s projected force structure.
- Collaborative & integrated work flow.
- Eliminate duplicate work & capabilities.
Change and Transformation

An agile and adaptive organization

• We must all understand that, without change, just about everything will become obsolete and useless to the operational force.
  – Tactics, techniques, technology and organizational constructs.
  – We must identify our own obsolescence before our enemy and environments do.
• “If it’s not broke, why fix it?”
  – That attitude instills a sense of complacency and is a perfect excuse for inaction.
  – It’s a dangerous mindset that assumes that the realities of today’s battlefields will magically reappear in a nice, linear and predictable fashion.
• The Special Warfare Center and School must embrace change.
  – Experience suggests that the more senior we are the more adverse to change we become and, by default, we will stifle great ideas by clinging to our antiquated rice bowls and outdated duty descriptions.
• Reorganization only creates the illusion of progress and is not CHANGE
SWCS will produce leaders who are highly trained in warrior skills and broadly educated with leadership qualities based upon humility, critical thinking, comfort with ambiguity, acceptance of prudent but calculated risks and the ability to make rapid adjustments based upon a continuous assessment of the situation.

SWCS’ Education Degree Initiatives

**Associate’s Degree**
- Fayetteville Technical Community College pilot program underway (Global Studies) with 23 students enrolled
- Other Service Members Opportunity College – Army Degrees (SOCAD) and ACE Partners on case-by-case basis

**Bachelor’s Degree (dL BA curriculum through Norwich)**
- Norwich University pilot program (projected 15 Students) scheduled for JAN 11 (Strategic Studies and Defense Analysis)
- Other Service Members Opportunity College – Army Degrees (SOCAD) and ACE Partners on case-by-case basis as pilot program validates concept

**Masters Degree**
- National Defense University (Strategic Security Studies) – 20 students enrolled
- University of Kansas (Interagency Studies) – 17 students enrolled
- Naval Postgraduate School (Defense Analysis) – 74 students enrolled
- Sister Service Schools
- War College

**Doctorate Degree**
- Currently researching requirements and opportunities
- Modify the USAJFKSWCS TDA to include billets requiring a doctoral degree (e.g. permanent professorship)
- Will require re-coded positions within USSOCOM (currently one billet required/authorized)
Directorate of Regional Studies & Education, USAJFKSWCS, has developed three distinct levels of instruction in 17 core languages:

- **Basic** - Our basic level of instruction (embedded into our qualification courses) is designed for students to achieve a minimum Oral Proficiency Interview (OPI) rating of 1 to 1 (listening and speaking) capability.

- **Intermediate** – Students enrolled in the basic language course who demonstrate the highest foreign language proficiency (approximately the top 15%) will be enrolled in the intermediate course upon graduation. This course is designed to give students a minimum OPI rating of 2 to 2 (listening and speaking), prior to reporting to their units. (28-week course).

- **Advanced** – The advanced program of language instruction is designed for those service members who have demonstrated the highest aptitude in language proficiency in the execution of their duties. Those selected will return to the Directorate of Regional Studies and Education, USAJFKSWCS, where they will enroll into a DLI-modeled curriculum designed to achieve a rating of 3 in all of the following: listening, speaking and reading capability.

- For those low-density languages, not identified as core languages, we will partner with other institutions that specialize in a broader variety of less commonly taught languages.
Directorate of Regional Studies & Education, USAJFKSWCS, is developing three distinct levels of instruction in Regional Studies comprising the **Regional Expertise Program**:

- **Basic** – (Initial Acquisition) Our basic level of instruction (currently embedded into our qualification courses) is designed for students to achieve a minimum understanding of foundational culture and regional analysis with Civil Affairs and Military Information support qualification course students engaging in further analysis using the PMSE-II-PT construct (systems of systems approach with regional flavor)

- **Intermediate** – (In development) – Currently imbedded within the Intermediate Language Course. Instructional outcomes focus on expertise specific to a region or country using the system of systems analysis approach, building on the expertise gained in the basic course as the vehicle to achieve informational dominance

- **Advanced** – (In development) Reapplication of the former Advanced Regional Analysis Course with updated and relevant learning outcome modules. Graduates will be able to demonstrate country and regional knowledge, analyze regional events and issues and apply cultural awareness to major cultural patterns in focus region

- **Cultural Support Team** – Basic cultural orientation for female operational support personnel assigned to support ARSOF operational units. Current emphasis is for the Afghanistan Theater of Operations.
If we don’t do this **who will?**

The future of our regiments is predicated upon our ability to produce adaptive SOF leaders who have leadership qualities based upon humility, critical thinking, comfort with ambiguity, acceptance of prudent but calculated risks and the ability to make rapid adjustments based upon a continuous assessment of the situation. These leaders must be highly trained in warrior skills and highly educated.
