“The first need is financial. There are hundreds wishing to carry out martyrdom-seeking operations but they can’t find the funds to equip themselves. So funding is the mainstay of jihad”
- Sheik Saeed, Middle East Research Institute

CN/COIN Strategy must not ignore Narcotics (CP/CI)

DEA Attacks DTO’s (networks); Leverage CN laws

Interdiction vs. Eradication

- The insurgency relies on drug trafficking as a significant source of revenue to fund transportation of fighters, training facilities, communications, weapons, and logistics;
- Operations and intelligence have proven that many narcotics traffickers and insurgents are one in the same;
- Narcotics trafficking feeds corruption and threatens the Afghan government’s legitimacy and is a strategic threat to USG policy and goals in Afghanistan;
- Government legitimacy and stabilization depends on the rule of law;
Counter-Narcotics & Counter-Insurgency in Afghanistan

DEA Strategy & Mechanism

- **Identify and Target HVT’s and key nexus nodes**
  Use informants, UC operations, interdiction operations, financial investigations, and telephone intercepts to develop prosecutable Afghan Bi-lateral, 959, and 960a cases

- **Synchronize and Conduct Operations with US/ISAF SOF**
  Transparent and shared targets, intelligence, investigative priorities, and resources throughout theatre

- **Capacity Building**
  DEA expansion and integration into ISAF Regional Commands. Continue to train, mentor, and advise specialized units of the CNP-A

- **Strategic Communications**
  Impact local Afghan mindset by enforcing rule of law, support Afghan-led operations, targeting corrupt officials and high-level insurgents & traffickers, and sustain dialog with tribal elders
FORECAST:
- More DTO/FTO hybrids will appear: 21st Century OC
- FARC is the case study
- DTO/FTO’s operate in same spaces
- Each vying for same money generated from same illicit enterprises
- Reliance on same shadow facilitators for logistics, finance, $, arms
- RED forces in compressed ‘space/time’ scenario become allies

*Is it a law enforcement mission or is it a military mission?*

**Both!!!** — U.S. law enforcement, the U.S. Military, and the Intelligence Community have no choice but to work closer together.

**GREEN** and **BLUE** forces must have unity of effort to prevail

“When your job takes you into the swamp to hunt snakes, you’ll have opportunities to kill or capture some crocs as well — cause they live and multiply in the same, nasty surroundings.”

*Mr. Frankie Shroyer, IATF Director USSOCOM*
