National Leadership

We can rebuild this economy on a new, strong foundation that leads to more jobs and greater prosperity. I believe a key part of that foundation is America’s small businesses – the places where most new jobs begin. These companies represent the essence of the American spirit – the promise that anyone can succeed in this country if you have a good idea and the determination to see it through.

Weekly Address, February 6, 2010

Small Business Champion

The SBA provides small businesses with the tools they need to grow and create jobs. SBA programs are focused on providing small businesses with access to capital, opportunities in government contracting, and counseling and entrepreneurial education, or the “Three C’s”: Capital, Contracting, Counseling. We also help with low-interest loans for business owners, homeowners and renters affected by disasters. (More than half of all working Americans own or work for a small business, and small businesses lead the way in economic recovery, innovation, and global competitiveness.)

Committed to Small Business Regulatory Fairness

One of the biggest concerns small business owners face is unfair enforcement of federal regulations. They also worry about telling their stories because they fear retaliation by federal agencies. Small business owners want to play by the rules and comply with federal regulations, and we want federal regulators to assist business owners with compliance rather than go straight to the penalty stage.

-Rates Federal agencies on their responsiveness to small businesses and reports its findings to Congress
- Ensures that federal regulatory enforcement is effective, and not excessive
