# Enhancing Test & Evaluation Productivity: OT&E

James W. Wade  
VP, Corporate Mission Assurance  
March 14, 2012

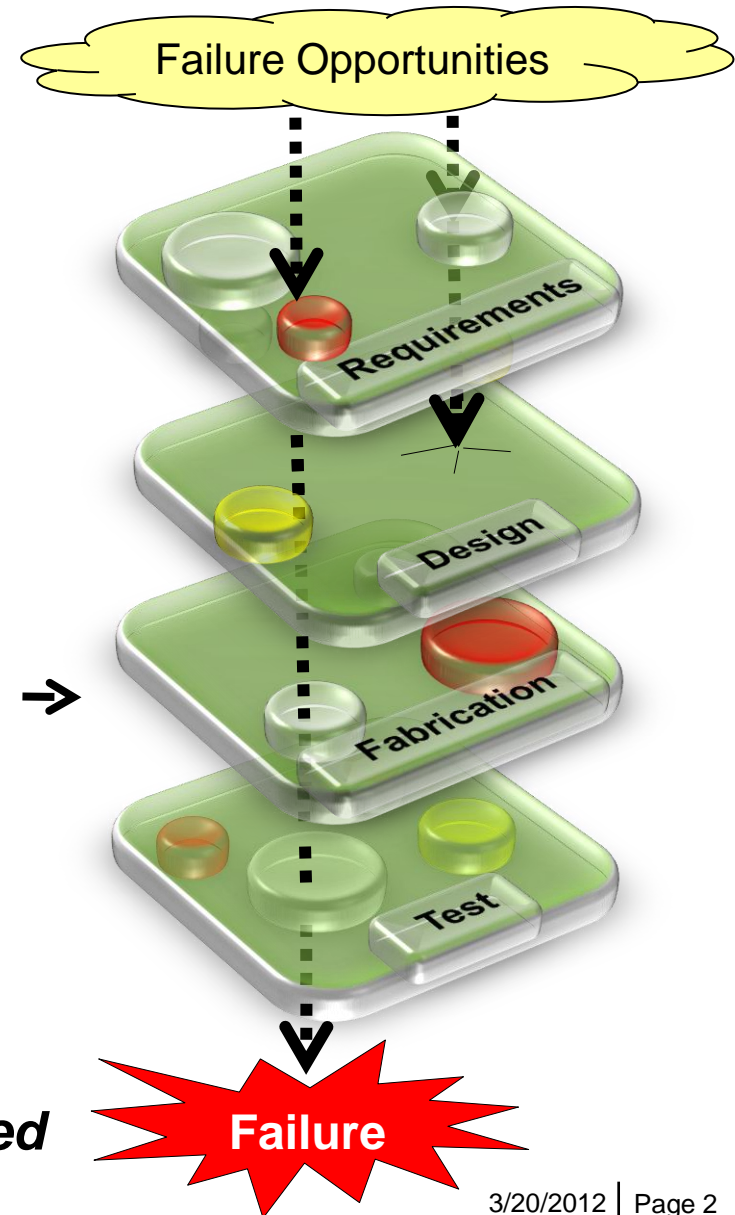

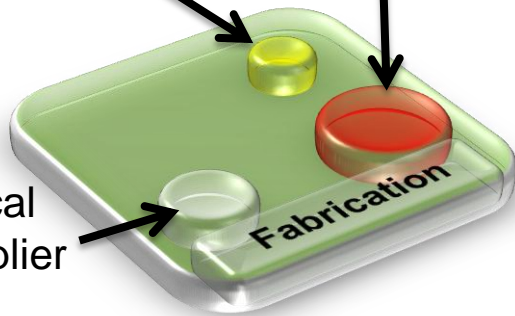

# Identifying and Managing Risks

Risks (known & unknown) exist throughout the program's life

Poor FOD control in assembly area  
(high risk)

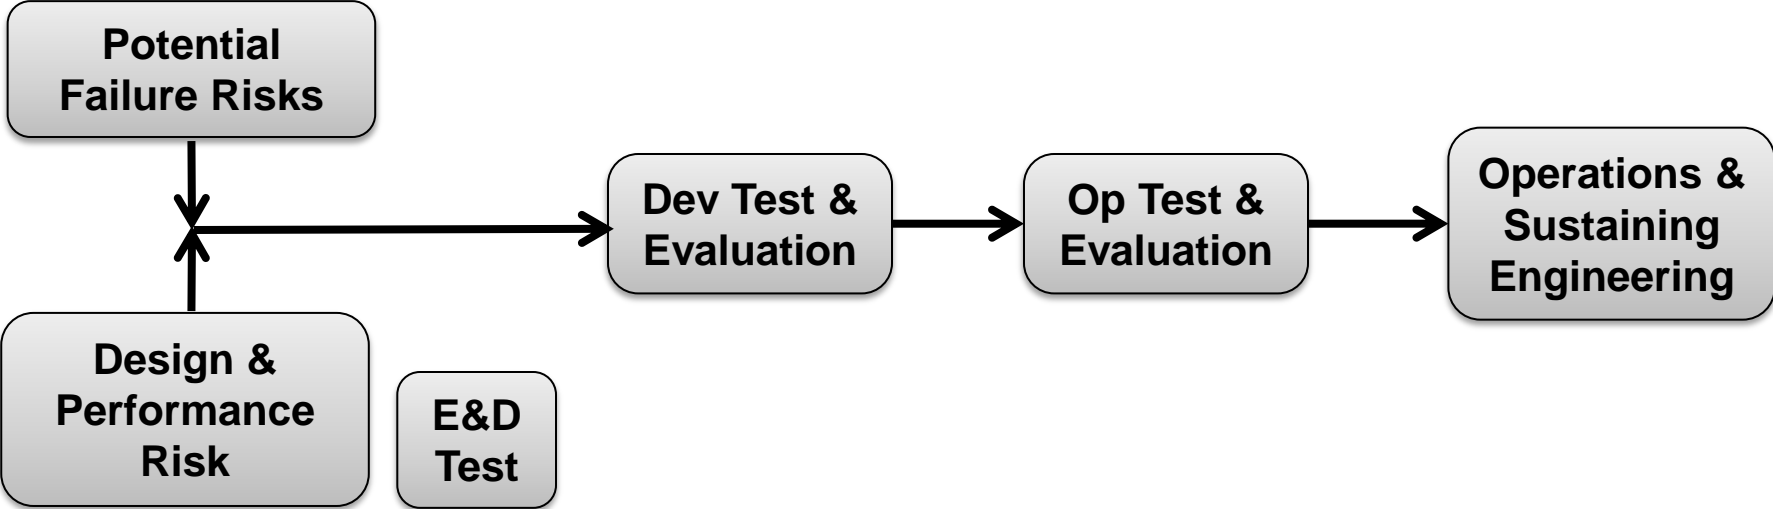

Lack of detail in  
assembly procedure  
(medium risk)

Change in critical  
process at supplier  
(unknown risk)

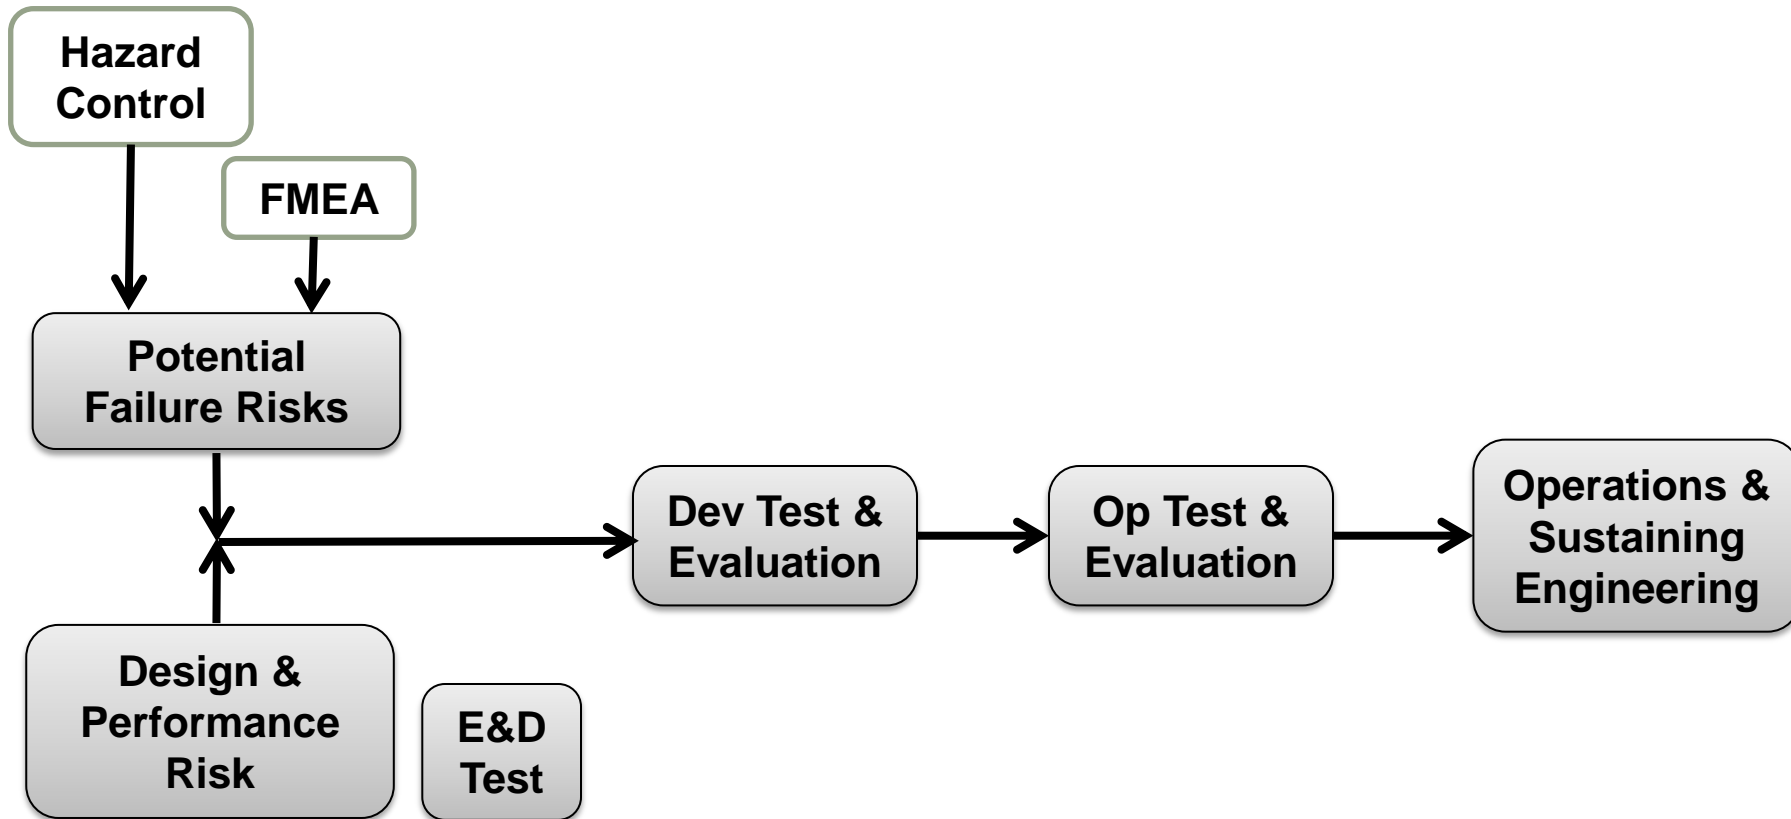

***Application of mission assurance can minimize the risks and maximize the probability that the failure path is interrupted***
