Overview

• Developing a Prepared, Improved and Adaptive Future Force
• Joint Operational Access (JOA) Concept basics
• The “family” of Joint Concepts…and how ASB fits in
• JOA Implementation: from Concept to reality
• JOAC, ASB, JCEO—potential mis-perceptions
• Questions?
What is and isn’t working for the current Joint Force?

“Joint warfighting capability is **improved** through the development of concepts validated by rigorous assessment and lessons learned from current operations. It is **sustained** through joint doctrine, education, training, and exercises.”

Joint Pub 1 (revised 25 March 2013)
Developed in support of NSS, QDR, and NMS

Supports the Capstone Concept for Joint Operations (CCJO) central idea of Globally Integrated Operations

Describes the capabilities required for the Joint Force to operate in contested environments characterized by anti-access/area denial (A2/AD) challenges

Leverages the central idea of Cross-domain Synergy to provide freedom of action for the Joint Force

Identifies key precepts for operational access and subsequently defines 30 required capabilities

Is an unclassified document approved for public release

JOA Implementation

• Goal: Improve Joint Force capability to gain and maintain operational access in A2/AD environments

• Method: Develop JOA Implementation Plan (JIP) via collaborative efforts with Services and Combatant Commands

• Timeline: Base plan approved by Spring 2014; subsequently updated on annual cycle

JOA Implementation is a large and complex task affecting the entire Department across all elements of DOTMLPF-P …and will take years to accomplish
Potential Misperceptions

• “JOA (or ASB, or JCEO) are strategies”

• “JOA (or ASB, or JCEO) are escalatory”

• “JOA (or ASB, or JCEO) are oriented on specific opponents”

• "JOAC and ASB are competing or redundant"
