•  **Role of the Special Operations /Special Force:**
  “I consider the use of Special Forces to be Similar to that of the surgeon’s scalpel. to achieve the best results for the patient, it must be used carefully, accurately and timely, and in a manner which causes no undue collateral damage. the Special Forces then the most important tools are those which enables surgical precision.”

•  **International cooperation**
  “We have to understand that it is called international terrorism; however we as special operations units all over the world are not yet international. The bad guys always work together, have always been coordinating, and have always been international. The good guys have never been. Progresses have been made in intelligence - sharing thus, we have to work together in order to defeat the bad guys will.”

•  **Regional Security:**
  “ Soldiers know better than anybody whether their training is good or not, soldiers will always know if the instructor coming in their country is showing him 100 percent of what that person knows, or just showing him a bit. Our philosophy in Jordan is to share everything we have with our brothers and counter parts around the Middle East and beyond. At the end of the day if your partners are strong you are strong”
“We should all help Iraqis in the formation of a strong national government. Here, I call on our brothers in Iraq to recognize the gravity of the situation, and not to listen to those who promote division, internal discord and the division of Iraqis into Sunni, Shiite, Kurdish and Turkman. Iraq should be for all Iraqis, not just for one faction at the expense of others. The truth is that those who bombed the holy shrines of the two imams at Samara and who desecrated the mosques, do not represent Islam. They aspire to ignite internal discord in Iraq…”

“The information that we recovered from bin Laden’s compound shows al Qaeda under enormous strain. Bin Laden expressed concern that al Qaeda had been unable to effectively replace senior terrorists that had been killed, and that al Qaeda has failed in its effort to portray America as a nation at war with Islam – thereby draining more widespread support. Al Qaeda remains dangerous, and we must be vigilant against attacks. But we have put al Qaeda on a path to defeat, and we will not relent until the job is done.”

Amman's Message

Fight the extremist ideology

The Amman Message started as a detailed statement released the eve of the 27th of Ramadan 1425 ah /9thNovember 2004 ce by H.M. King Abdullah II bin Al-Hussein in Amman, Jordan. It sought to declare what Islam is and what it is not, and what actions represent it and what actions do not. Its goal was to clarify to the modern world the true nature of Islam and the nature of true Islam.

In order to give this statement more religious authority, H.M. King Abdullah II then sent the following three questions to 24 of the most senior religious scholars From all around the world representing all the branches and schools of Islam:

1. Who is a Muslim?
2. Is it permissible to declare someone an apostate (takfir)?
3. Who has the right to undertake issuing fatwas (legal rulings)?
Amman's Message

Fight the extremist ideology

Based on the fatwas provided by these great scholars (who included the Shaykh Al-Azhar; Ayatollah Sistani and Sheikh Qaradawi), in July 2005 ce, H.M. King Abdullah II convened an international Islamic conference of 200 of the world’s leading Islamic scholars ‘Ulama) from 50 countries. In Amman, the scholars unanimously issued a ruling on three fundamental issues (which became known as the Three Points of the Amman Message)

• Amman's Message is the Minaret for all those who seek the Truth of the real Islam.
The Amman Message

Fight the extremist ideology

• Stands against Justifying Violence in the name of religion
• Stands Against extremism in the name of Islam
• Terrorists In the name of Islam, have twisted the religion as their tool to achieve their Goals
• Islam is not only a religion but also a way of life, where the principles of tolerance and dialogue prevail
• Amman's Message is the compass for all those who seek the Truth of the real Islam

As of: 16 JAN 2011
His Majesty the King

“a universal consensus and mutual recognition by Muslim authorities from all the major existing schools of thought and factions on what it means to be Muslim and on who has the right to speak authoritatively in the name of Islam. And as all True Islam forbids wanton aggression and terrorism, enjoins freedom of religion, peace, justice and goodwill to non-Muslims, it is also a message of good news, friendship and hope to the whole world.”

Dadu Khel Security Shura

Location: IVO Dadu Khel ANSF Checkpoint, Pule Alam City, Logar Province

Unit: TF Raptor/TF Nashmi/4th CS Kandak

Attendees: 11 Dadu Khel Village Elders, COL Gul (4th CS KDK CDR), COL Aref (TF222C CDR), xxxxx (TF Raptor CDR)

Purpose: To discuss the construction of the ANSF Checkpoint ivo Dadu Khel, spread the Ramadan messages, and reinforce security commitment in the area.

Key Highlights:
• COL Gul opened the shura explaining the construction of the CP and GIRoA/ANSF/CF commitment to providing security for the area. As requested by the villagers, the CP will now serve to protect them from INS intimidation tactics. He urges the locals to participate in the security process by reporting INS activities.
• xxxxx, representing the Dadu Khel villagers, welcomed ANSF presence into the village, was grateful of the CP, and promised to work with ANSF to improve security. He brought up two important considerations during Ramadan:
  1. There will be farmers out late at night and early morning to work on the fields due to fasting during the day
  2. Villagers will conduct prayer at the mosque late at night and will return home late
• Flooding issues and a VMOP opportunity in the near future were discussed.
• At the end of the shura, phone numbers were exchanged between ANSF/TF Nashmi and the elders for reporting and to maintain relationships. Thirty holy Korans were distributed to the elders.

Commander’s Assessment: This security shura was a positive event as the villagers showed genuine interest with the presence of the CP. The village elders admitted that there are a few “trouble makers” in the village, but Dadu Khel overall has received a bad reputation with outsiders coming from Zarghun Shar and Powrak. They promised to work together with GIRoA/ANSF to improve security. xxxx, a religious scholar, appreciates everything that CF has been doing. He denounced the Taliban for wrongly using “jihad” and mislabeling CF as “invaders.” xxxx states that from his experience, he has not seen any signs of “invaders” from CF.

TF Nashmi-TF Raptor VMOP in Babus.

**Location**: Babus– Pole Alam district.

**Unit**: TF Nashmi/TF Raptor.

**Purpose**:
- to help the afghan patients in the remote villages where they can’t get the health care and offering the medical support for them.
- Provide supplies to the locals and engage JFST with the local Afghan women.
- Talk to the locals to inspect their needs and prove that the CF care for the civilians’ needs and work to provide the humanitarian aids continuously.

**Discussion**
- A combined medical team from TF NASHMI and TF Raptor conducted a free medical day in Babus village.
- Both of the TF Nashmi and American doctors diagnosed many of the Afghan patients in Babus and they gave them the medicine and listened to their needs trying to help them. Also the female support team was there and dealt with the afghan women and presented them some supplies.

- The villagers were pleased and satisfied with the health care from the doctors and gentle treatment with the patients.
Religion must be part of the solution, not part of the problem
The first Religious Seminar on Logar Province 19 DEC 2010
Puli Alam, Logar, Afghanistan

Purpose:
To attend the Religious Seminar that took place in Pole Alma district which aims at bringing the CF, the GIRoA, the Imam of mosques. Additionally, to hear from the Shura members about the needs and the complaints of the locals and assess them in order to help overcome these problems to fight terrorist ideology.

Discussion:
The Seminar started at 1100 in Puli-Alam center, it was attended by 80 Imams of the mosques in Logar Province, deputy of Governor, director of Hajj, Nashmi6, Nashmi Imam, Thunder6 and Thunder Chaplain. During the meeting all the speakers the role that the Imam and mosque in changing terrorist ideology and all of this will help to build a strong country and providing security.

Commander’s Assessment:
This is the first meeting and we will continue to hold this kind of religious meeting which has great impact because the TB blend well into Afghan society and are using mosques as their platform for dispersing their vicious, extremist and twisted theology.

Purpose:
To attend the event of detainees release in Pole Alam, where different members of Shura council spoke about the importance of being a good and effective member in the society and to direct all the local efforts for the prosperity of the country and build the schools in which the children will receive the education and sciences and then will help build the country in all walks of life.

Summary of Events:
The meeting started with reciting some verses of the Holy Quran then a speech delivered by the attendees. The meeting was initiated by Suliman Khil (the chief of Shura Council), who thanked the CF for the support and for the Afghan officials who facilitated the release of the detainees. He also thanked the Jordanian TF who came from an Islamic country to provide help. GEN Sayyed Marjan said these meetings will reinforce the relationship between the locals and the government. He also talked about the Detention Department. He said this department is not just a jail where the detainee is put in, however, this department includes a training center to rehabilitate the detained person to learn reading, writing and Islamic sciences. Khoshi sub-governor said the CF are here to provide help for our country. He mentioned the importance of confirming any piece of information about anyone before detaining him. The meeting ended with distributing copies of the Holy Quran for the detainees.

Commander’s Assessment:
This event will undoubtedly enhance the relationship between the local community and the government as they all get together and speak about their shared concerns and how to unify the efforts in one path so that everyone will be satisfied. Moreover, such a meeting as part of the IOC will clarify the role that the CF play in Afghanistan regarding providing security and stability, consequently we will notice minimized activities against the CF.

## INTEL SUMMARY SHEET

**FUNCTION:**
Cell Leadership (commands <20 fighters); IED Manufacturing (Critical Skill: Chemist/Technician/Developer); Weapons Cache/Storage

**SIGNIFICANCE:**
- Facilitated a spectacular attack within Kabul City with other CDRs & suicide bombers
- Suicide bomb & IED/VBIED facilitator; transports weapons to Taliban cells; assists in attacks on CF; contributes to the planning & coordination of suicide & VBIED attacks on coalition/US forces

**EXPECTATION:**
The capture/kill of MULLAH xxxx will disable TB IED & Suicide Bomb cells in Pul-E-Alam and Mohammad Agha Districts. His removal will disrupt this cell’s facilitation functions and possibly force remaining leaders out of the area. The estimated degree of impact is assessed as medium with a functional recuperation time estimated at 4-6 weeks for the network, however this may have a larger impact as other leaders may flee the area or go into hiding as has been observed in similar situations.

**RISK:**
MULLAH xxxx is assessed to be a LOW-risk target as reporting does not show ties to GIRoA or any of its entities.

**INTEL GAIN/LOSS:**
Successful interrogation of MULLAH xxxx will provide insight to TB IED Cells as well as insurgent LOCs within Logar. He may provide actionable intelligence on mid level to senior Taliban leaders in the area. xxxx can provide relevant information regarding facilitation points in Kabul Province & actionable information regarding other VBIED/IED/SB facilitators in Logar.

**THREAT STATEMENT:**
MULLAH xxx is known to have small arms, at this time it is not known how many MAM’s are inside his compound, the chance of SA attack is assessed as MEDIUM. Xxxx is a known suicide and IED facilitator therefore he is likely to have IEDs and or components within his compound. Xx has been detained in the past and will have an understanding of CF TTPs. It is likely xxxx will have synthesizers near his compound which may provide early warning. IED attack on CF convoy during INFIL or EXFIL is assessed as LOW- MEDIUM.

**ACTIONABLE INTELLIGENCE:**
18 total reports: all HUMINT from 2 separate sources, 2 of which are graded C3 and above.

**J2 ASSESSMENT:** The balance of reliable HUMINT reporting, within which multiple sources corroborate information, indicates that this Intel is reliable and forms an accurate portrayal of Mullah xxxx activities, links and intent.

TF NASHMI Impacts

- Mitigates Enemy IO message that US is anti-Islamic
- Defeat INS IO message that we’re here as an occupation force
- Immediate credibility with the local population
- Combat the INS radicalized Islamic messaging
- Decrease the INS hostile activity on Logar province
In the end as we learned, the US electric Slide, we taught our Jordanian electric slide to the US partners.
