DEPARTMENT OF THE AIR FORCE
WASHINGTON DC

OFFICE OF THE ASSISTANT SECRETARY

FEB 27 2014

MEMORANDUM FOR SEE DISTRIBUTION

FROM: SAF/AQ
1060 Air Force Pentagon
Washington DC 20330-1060

SUBJECT: Enhancing Small Business (SB) Opportunities in FYs 14-15

1. Small businesses are critical to our defense industrial base, are essential to our nation's economic recovery, and play a critical role in support of the Air Force's mission. Therefore, maximizing opportunities for SBs to participate in prime and subcontract awards, structuring requirements to facilitate competition by and among SBs, and removing unnecessary barriers that preclude SB participation as prime contractors are priorities for our Air Force. To help increase our SB performance, we need to ensure our collaborative efforts with the SB and contracting communities and our prime contractors are clearly focused on identifying requirements and acquisition strategies suitable for SB awards. To this end, I request your support in the following:

a. Breakout Strategies: Aggressively develop component and subsystem breakout strategies and then demonstrate what part of the breakout content is suitable for SB set-aside strategies. Make this an integral part of all future acquisition planning activities such as market research, ESIS and ASPs.

b. Military Interdepartmental Purchase Requests (MIPRs): Ensure your review processes are scrutinized so that we are using our Air Force multiple award IDIQ contract vehicles or other Air Force contracts as a first choice.

c. Strategic Industry Outreach: Participate in at least one biennial Industry Outreach event, as security classification levels allow. SAF/AQR and SAF/SB have partnered in an initiative to improve our success in finding SB capabilities across our mission areas through portfolio-targeted outreach. The project looks to improve our utilization across SB innovation research, SB tech transfer, rapid improvement fund, mentor protégé, and socioeconomic programs. Mr. Richard Flake, AFRL, DSN 986-9869, is leading this planning effort and will contact you with additional details.

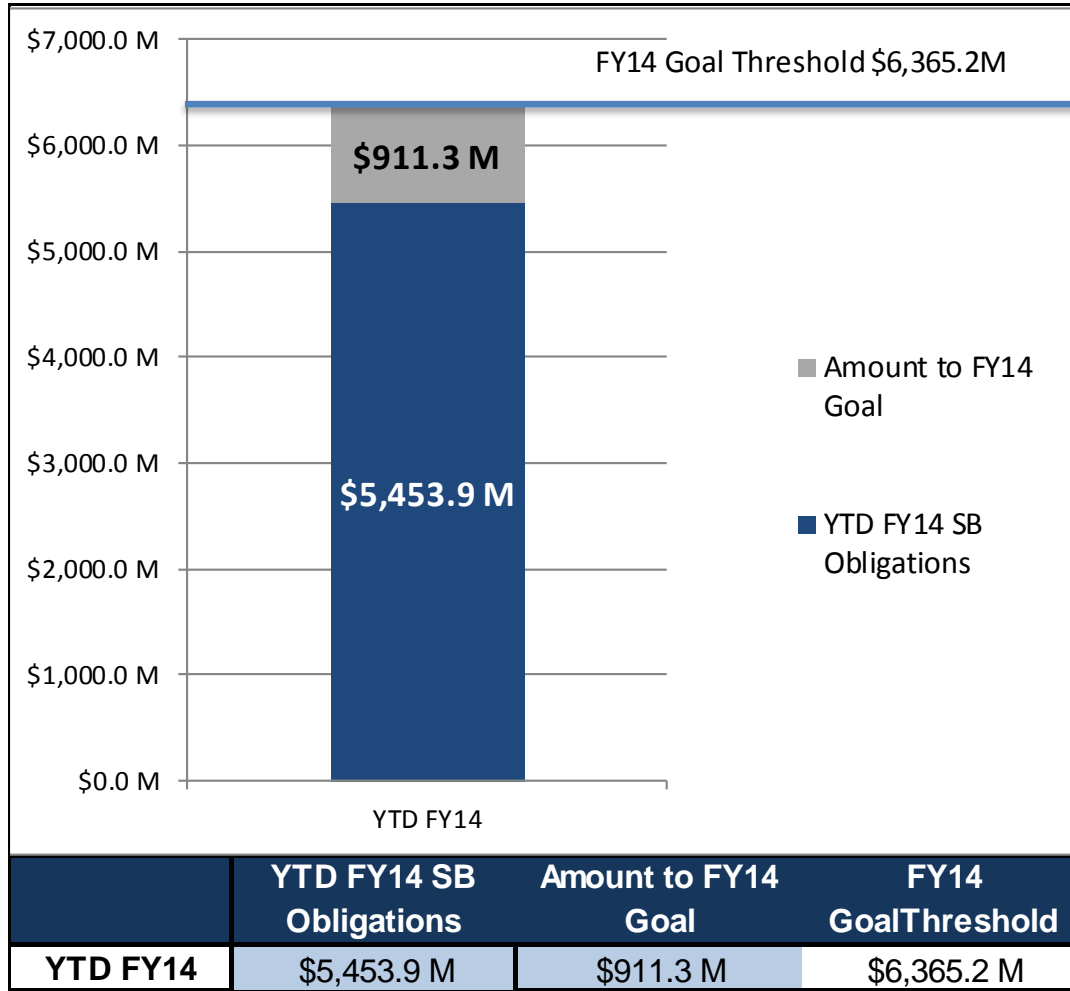

2. The Air Force achieved 14.45% towards our 15% SB goal in FY13, which is an amazing feat given the impact Air Force budget reductions had on SB-friendly entities. You should all be proud of these FY13 accomplishments. However, with continuing pressures on the budget and SBs an on-going leadership-focus area, we must strengthen our efforts in FY14 and beyond. Small businesses are being hit hard in these uncertain times, and we must do our part as the Administration and Department of Defense continue to emphasize increased use of SBs. Should you need assistance in these improvement endeavors, I have asked Ms. Carol E. White, SB Acting Director, SAF/SB, and her team to assist or provide additional guidance. They can be reach at: (571) 256-8052 / (DSN 260), usaf.pentagon.saf-sb.mbx.saf-sb-workflow@mail.mil.
