

# NISS - National Industrial Security System

- **NISS is DSS' future information system architecture designed to provide a centralized, on-demand, data-driven environment with automated workflows accessible to Industry and Government partners.**
- **Sample key features of NISS v1.0:**
  - Replace and expand on ISFD and e-FCL
  - Automate the Initial Facility Clearance process
  - Provide dynamic smart forms for content submission
  - Single sign-on through NCAISS
  - Provide expanded role-based access and transparency to security professionals' facility information
  - Secure messaging between Industry/DSS (Submission of SCRs, Security Violations, etc.)
  - Interface with OBMS, SAM, DLA CAGE
- **NISS deployment schedule:**
  - **2017 – August: NISS v1.0 Soft Launch**
    - Register for accounts, Hands-on system familiarization and training, ISFD/e-FCL still acting as systems of record
  - **2017 – October: NISS v1.0 Full Deployment**
    - Purge information captured during Soft Launch, Migrate information & sunset ISFD/e-FCL
  - **2018 – CYQ1: NISS v1.1 Deployment**
    - Industry can submit changes for Facility Profile data, Survey deployment capability (PSI-I Projection, etc.)
  - **2018 – Quarterly Enhancements**
    - Based on community feedback and priorities

# NISS – Training & Engagement

- **System Training**
  - Training modules are in development and expected to deploy Summer 2017
  - Will be accessible in the DSS Security Training, Education and Professionalization Portal (STEPP)
  - Will replace FSO Curricula courses for ISFD and e-FCL (STEPP IS118.16 and IS071.16)
- **Engagement Activity**
  - **Website - <http://www.dss.mil/is/niss.html>**
    - News, System Information, FAQs, Points of Contact
  - **Newsletters & Publications**
    - DSS Voice of Industry Newsletter, DSS Access Magazine Summer 2017 edition
  - **Webinars**
    - Real-time system demonstrations, Q&A
  - **Conference Demonstrations**
    - NCMS National – Anaheim Jun 20/21
  - **Email**

**DSS.NISS@mail.mil**

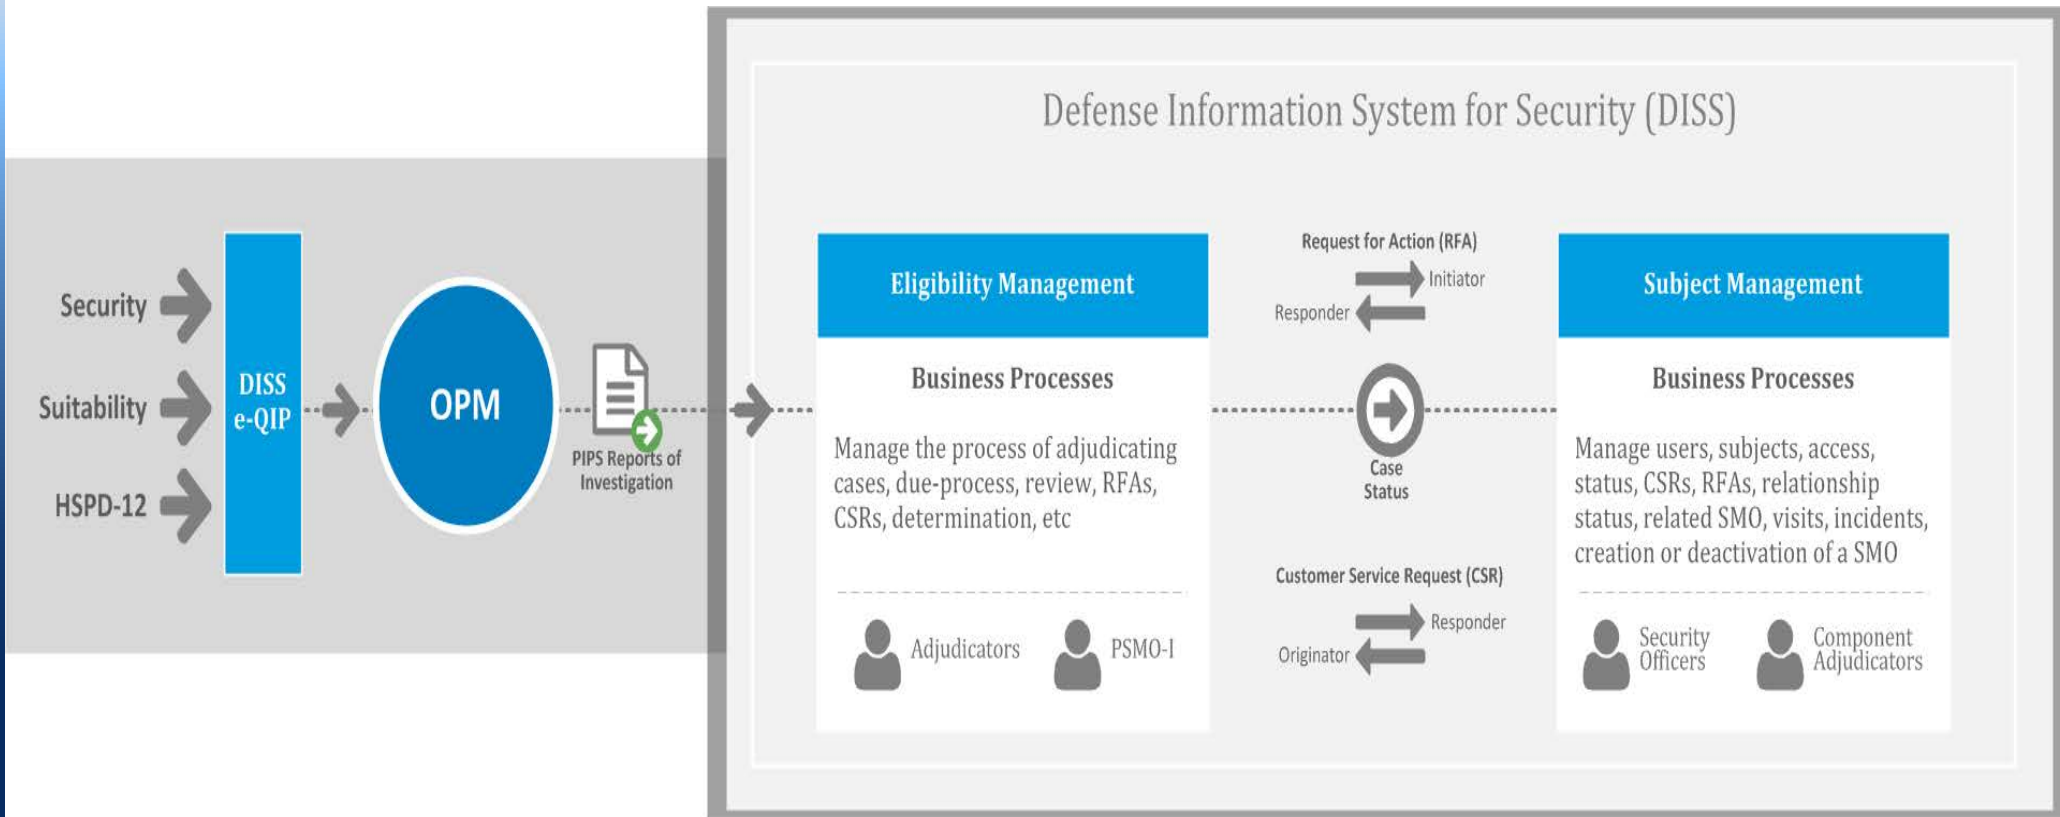

# Defense Information System for Security (DISS)

# What Is DISS?

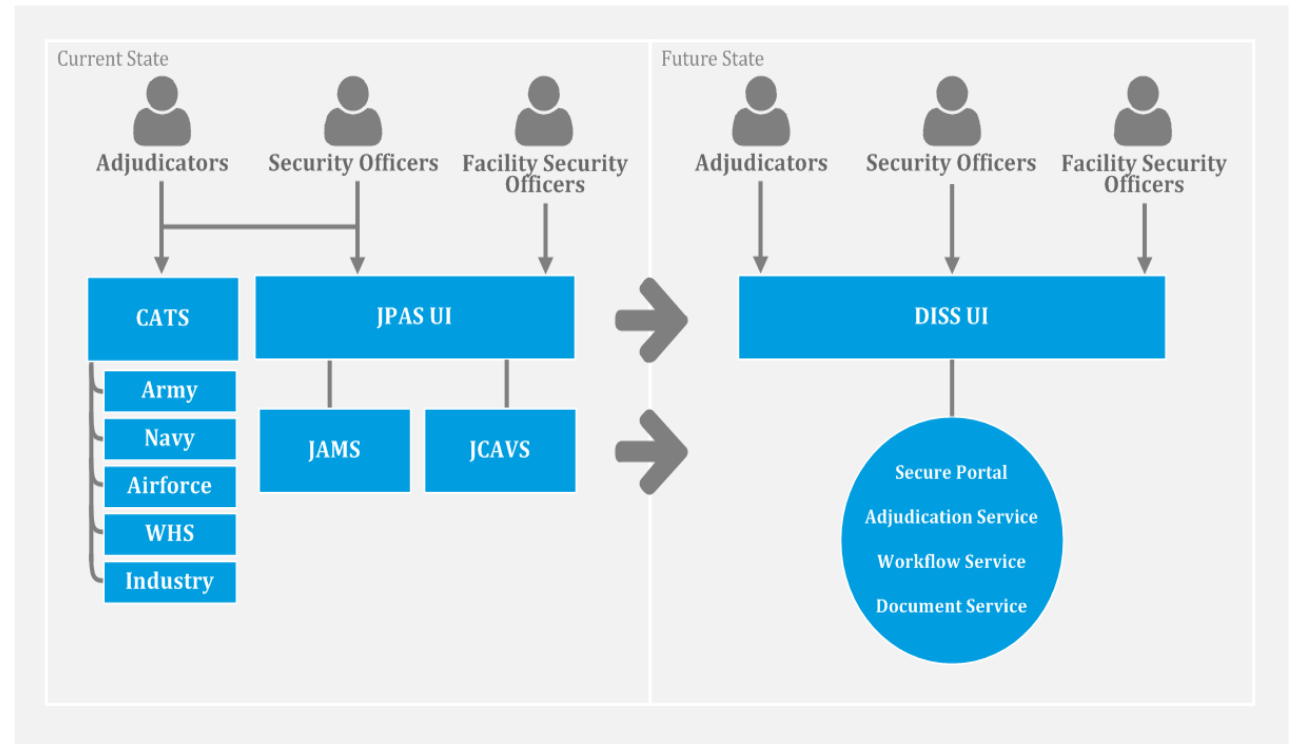

DISS is the enterprise solution to enable consistent standards throughout the DoD Personnel Security, Suitability and HSPD-12 mission areas. Once fully deployed, DISS will replace JPAS and the legacy Case Adjudication Tracking Systems.

# DISS Transformation Benefits

- Continuous and integrated workflow between DoD CAF, DSS PSMO-I and FSOs
- Ability to provide supporting documents through Secure Portal
- Provide electronic interim determination (e-Interim)
- Provide electronic clearance decisions (e-Adjudication)
- Ability for DoD CAF Adjudicators to perform one review and action
- Updated Incident Workflow process
- Updated Visit Workflow process
- Updated Workflow for SF-312s

# Phased Fielding Strategy

CATEGORY		PHASE 1 "Migration to Single Adjudicative System"	PHASE 2 "DISS Enterprise Subject Management"	PHASE 3 "Establishment of a Single System of Record"
PROGRAM GROWTH	Legacy System Phase Out			
	DISS Capability Rollout			
CAPABILITIES	High Level Summary	<p><b>Phase 1</b> will migrate off the multiple adjudicative systems and core enterprise services into DISS.</p>	<p><b>Phase 2</b> will migrate subject management capabilities and additional enterprise services into DISS. Legacy CATS/CATS Portals will be taken offline.</p>	<p><b>Phase 3</b> completes the rollout of the DISS enterprise services. JPAS will be taken offline during this phase.</p>
	Key Capabilities Stream	<p><b>DISS</b></p> <ul style="list-style-type: none"> <li>Initial deployment to Full Deployment (FD) (4<sup>th</sup> Estate to Industry)</li> <li>All new cases are adjudicated in DISS and open cases are worked in Legacy CATS systems</li> <li>Closed cases from legacy CATS will be migrated to DISS</li> <li>OPM, CVS, PDR, DCIL, JPAS interfaces will be enabled</li> </ul> <p><b>CATS/CATS Portal</b></p> <ul style="list-style-type: none"> <li>Active adjudications and correspondence will occur in DISS</li> <li>Legacy CATS will run in parallel with DISS</li> <li>Due process will be managed in Legacy CATS (AF and Army)</li> <li>Subject search for Adjudicators and Security Officers will be conducted in CATS/CATS Portals</li> </ul> <p><b>JPAS</b></p> <ul style="list-style-type: none"> <li>Subject search for Security Officers will be conducted JPAS</li> <li>Subject management activities are conducted within JPAS (Access, visits, foreign relationships, etc.)</li> <li>Incidents will be logged in JPAS and migrated to DISS</li> </ul>	<p><b>DISS</b></p> <ul style="list-style-type: none"> <li>Subject management activities are conducted within DISS (Access, visits, foreign relationships, etc.)</li> <li>Due process is managed within DISS</li> <li>Data synchronization occurs between JPAS and DISS</li> <li>Subject search for Security Officers will be conducted in DISS</li> <li>Adjudicative documents will be available within DISS</li> </ul> <p><b>CATS/CATS Portal</b></p> <ul style="list-style-type: none"> <li>Legacy CATS/CATS Portal will be taken offline (all versions)</li> </ul> <p><b>JPAS</b></p> <ul style="list-style-type: none"> <li>JPAS will be transitioned to a read only system</li> </ul>	<p><b>DISS</b></p> <ul style="list-style-type: none"> <li>All functions and interfaces are available within DISS</li> </ul> <p><b>CATS/CATS Portal</b></p> <ul style="list-style-type: none"> <li>Systems will be offline</li> </ul> <p><b>JPAS</b></p> <ul style="list-style-type: none"> <li>JPAS will be taken offline</li> </ul>

# What to Expect on Go-Live

## Features to use in DISS

- eDelivery of all new Industry cases
- End-to-End workflow between DoD CAF, PSMO-I and Facility Security Officers (FSOs)
  - FSOs can access Portal to review case determinations
  - FSOs can submit Customer Service Requests and Supplemental Information through the secure portal to PSMO-I for action
  - DoD CAF adjudicators to access new cases from NBIB
  - DoD CAF will submit Requests for Action to FSOs

## Features To Continue to Use in JPAS

- Subject Management, Access Management, Incident Management, Visit Management, eQIP submissions, Reporting

\*Initial deployment will identify workflow, operational and/or procedural impacts. JPAS will still be the system of record until Phase 2 of the transition.

# DISS Developed Training and Reference Materials

- DISS Phase I Materials available
  - Sep 2016 – CDSE STEPP Training Shorts
    - DISS Portal (EX101.16)
    - DISS Hierarchy Management (EX100.16)
  - Rollout – User Manual (within application)
  
- DISS Tab on PSA reference website: [www.dmdc.osd.mil/psawebdocs/](http://www.dmdc.osd.mil/psawebdocs/)
  - Release Announcement
  - Account Management Policy
  - Account Request Procedures
  - DISS 1.0 Release Notes
  - New PSSAR for DISS access
  - Frequently Asked Questions
