WHO WE ARE

The National Defense Industrial Association is the trusted leader in defense and national security associations. As a 501(c)(3) corporate and individual membership association, NDIA engages thoughtful and innovative leaders to exchange ideas, information, and capabilities that lead to the development of the best policies, practices, products, and technologies to ensure the safety and security of our nation. NDIA’s membership embodies the full spectrum of corporate, government, academic, and individual stakeholders who form a vigorous, responsive, and collaborative community in support of defense and national security. NDIA is proud to celebrate 100 years in support of our warfighters and national security. The technology used by today’s modern warfighter was unimaginable 100 years ago. In 1919, BG Benedict Crowell’s vision of a collaborative team working at the intersection of science, industry, government, and defense began what was to become the National Defense Industrial Association. For the past century, NDIA and its predecessor organizations have been at the heart of the mission by dedicating their time, expertise, and energy to ensuring our warfighters have the best training, equipment, and support. HARASSMENT STATEMENT
NDIA is committed to providing a professional environment free from physical, psychological and verbal harassment. NDIA will not tolerate harassment of any kind, including but not limited to harassment based on ethnicity, religion, disability, physical appearance, gender, or sexual orientation. This policy applies to all participants and attendees at NDIA conferences, meetings and events. Harassment includes offensive gestures and verbal comments, deliberate intimidation, stalking, following, inappropriate photography and recording, sustained disruption of talks or other events, inappropriate physical contact, and unwelcome attention. Participants requested to cease harassing behavior are expected to comply immediately, and failure will serve as grounds for revoking access to the NDIA event.

**31ST ANNUAL NDIA**  
**SO/LIC SYMPOSIUM**

**REGISTER TODAY**

Special Operations Forces and Great Power Competition

Attend this newly redesigned event—with its enhanced attendee experience and greater facilitation of discussions—to expand on the importance of SO/LIC forces in our national security strategy. By creating partnerships and inspiring innovation, this symposium fuels a sense of agency and urgency as attendees address the new threat environment.

March 31 – April 1  
Washington, DC  |  NDIA.org/SOLIC20
KATHERINE ARRINGTON
Special Assistant to the Assistant Secretary of Defense for Acquisition for Cyber
Office of the Under Secretary of Defense for Acquisition and Sustainment, Department of Defense

Katherine “Katie” Arrington currently is the Special Assistant to the Assistant Secretary of Defense for Acquisition, ASD(A), for Cyber. In this position, she serves as the central hub and integrator within the Office of the Under Secretary of Defense for Acquisition and Sustainment, OUSD(A&S), to align acquisition cyber strategy.

As the cyber lead and programmatic analytic advisor for strategic cyber programs, Ms. Arrington is responsible for conducting analysis within the major defense acquisition program portfolio and across the Department of Defense. This cross functional analysis will ensure transparency within the acquisition strategy, interoperability between enterprise networks, and compliance strategies for cyber initiatives. She also meets with key cyber personnel (across both DoD and Federal Agencies) as well as legislators to ensure that changes made in the National Defense Authorization Act (NDAA) are supportive in reaching the goals of decreased spending and increased compliance with current and future standards. The final focal point will be on protecting the Department’s intellectual property/data and securing our weapon systems and critical infrastructure.

Before assuming her position in OUSD(A&S), Ms. Arrington had an extensive career as a legislator and senior cyber executive. Ms. Arrington was a candidate for South Carolina U.S. House of Representative 2018 and a South Carolina State Representative for 2 terms. She has substantial experience and capabilities in cyber strategy, policy, enablement, and implementation across a wide range of domains, including DoD, Federal, Healthcare, and State. She acquired her experience in cyber over the past 15 years with Booz Allen Hamilton, Centuria Corporation, and Dispersive Networks. This experience has given her the unique opportunity of working at a large business, small business, and non-traditional contractor for the government. She attended Canisius College in Buffalo, NY.

NDIA has a policy of strict compliance with federal and state antitrust laws. The antitrust laws prohibit competitors from engaging in actions that could result in an unreasonable restraint of trade. Consequently, NDIA members must avoid discussing certain topics when they are together at formal association membership, board, committee, and other meetings and in informal contacts with other industry members: prices, fees, rates, profit margins, or other terms or conditions of sale (including allowances, credit terms, and warranties); allocation of markets or customers or division of territories; or refusals to deal with or boycotts of suppliers, customers or other third parties, or topics that may lead participants not to deal with a particular supplier, customer or third party.
2020
PACIFIC OPERATIONAL
SCIENCE & TECHNOLOGY
(POST) CONFERENCE

SAVE THE DATE

Forward Together – Strengthening Partnership,
Presence, and Military Readiness

Join experts in science, technology, and security for this premier event, hosted in conjunction with the U.S. Indo-Pacific Command, to identify practical solutions to operational challenges in the region given the shifting security environment. Don’t miss this chance to strengthen our presence in the Indo-Pacific and fortify our partnerships by participating in workshops, discovering emerging capabilities, and mitigating vulnerabilities.

March 9 – 13 | Honolulu, HI | NDIA.org/POST
